## EL DORADO COUNTY'S ONLY DAILY NEWSPAPER

VOLUME XLVIII

PLACERVILLE, EL DORADO COUNTY, CALIFORNIA, TUESDAY, MAY 24, 1938

NUMBER 121

Several whose baseball days were long since over are contending today that the only thing "soft" about softball is the ball—and some of the players who were "colts" a long time ago.

The opening night was a "whole" of a success and it's a grand community activity. Our box scores on the opening games are a little bit "rusty," but we'll hope to get things better organized as we go along.

Supervisor Smith and virtually all of the field crew of Eldorado Forest were at Armstrong lookout, on the Alpine highway, Tuesday, for the opening of the annual fire guard school. Ranger George B. Young is in charge.

We can report that a new glass has been installed in the door leading to the public library stairway. The glass was broken out during the "big wind" of some months ago, and since that time a plain board has blocked the hole in the door. Now, if someone will see to it that the word "Library," or sum'p'n, is painted on the new glass, folks won't have to ask questions to find the place where they can get books.

Farm Advisor Lilley was at Sacramento Tuesday to remain through Wednesday at the annual ram sale and wool show.

Green Valley school will hold its second annual reunion and celebrate its seventy-sixth anniversary at the school grounds on Sunday, June 5.

Placerville Druids will meet tonight and initiate five candidates.

Mr. and Mrs. Fred H. Miller were guests at the Cliff Hotel San Francisco, on May 23. Didn't know Fred was a "Cliff-dweller."

One of the windows on the second floor of the Lower Fairchild Building was lettered Monday with the following inscription, "T. S. Marlor, Lawyer."

Mrs. Irma Lawyer and daughter, Mrs. Ethel Kidd, were among the callers from Lotus on Tuesday.

Mr. and Mrs. Charles Brandon were callers from the Latrobe district.

Penelope Risser, daughter of Mr. and Mrs. R. G. Risser, leaves Wednesday for New Orleans for a vacation visit with her father, who is stationed there with the federal Bureau of Crop Estimates. After a visit there, she continues to Chicago to spend a short stay before returning home.

Lion President Bill Hayes is the first major casualty of the softball season. Bill attempted a hook slide into third base Monday night, sprained an ankle and has been ordered to stay off his feet for the week.

Mrs. Ralph LeVitt, of Five-Mile Terrace, is a patient at the Sanatorium following a recent stroke.

Mrs. Frank Schaefer, of Placerville, is a Sanatorium patient following a stroke suffered Sunday.

Placerville Sanatorium reports Father T. J. Hayes continues to improve. No visitors yet; they tax the patient's strength.

Lack of seating capacity at the county park as evidenced at the softball games Monday night causes inquiry concerning the building of new bleachers at the park. Our recollection is that a project was submitted,—probably three years ago—to one of the alphabetical agencies asking for a grandstand at the park. Wonder what happened?

### Mrs. Stroup To Be Laid At Rest At Folsom

The funeral services for Mrs. Amy Josephine Stroup, 32, wife of Clarence L. Stroup, of Pollock Pines, who died Monday morning, will be held Wednesday at 2 o'clock at the home of Mrs. Berry, in Folsom, under auspices of the Miller Funeral Home, of that city. Interment will be at Sylvan cemetery.

Mrs. Stroup, a native of Folsom and subject throughout her life to an unsatisfactory state of health, was found dead in bed Monday morning.

Frank Andreason is at Stockton on business for two weeks and while there will visit his brother.

Jeo Star, Jr., was down from Caldor CCC camp Monday, visiting his father.

## COUGARS SEAT NEW OFFICERS

Annual "Senior Assembly" Is Held Tuesday Afternoon; Athletic Awards Presented

The annual "Senior Assembly," one of the features of commencement week, was held Tuesday afternoon at the high school auditorium. New student body officers were installed, awards were presented those who have represented the school in athletics and band during the year, and the Seniors made their class presentation to the school.

The Seniors gave to the school an opaque projector and a high school banner. The projector is similar in many respects to the popular type of stereopticon lantern used as a toy some years ago. The device is not a toy, however, and will be of great use to the school in the illustration of various topics taken up in class room discussions.

Athletic awards were presented as follows:

To Edward Edelman, captain of the "C" basketball team, a trophy emblematic of the Mother Lode League championship.

Coach L. A. Brown also presented baseball sweaters to Chester Carsten, Jim Schroth and Ken Ward; baseball stars to Bruce Buhler, Bill Schroth and Edison Shinn; and baseball club "E's" to Robert Barrett, Stanley Beach, Robert Boggs, Don MacIn, Eugene Marchini, Hardie Tatum and Roy Del Carlo.

Jim Schroth and Bruce Buhler, co-captains of the baseball team, accepted the silver trophy emblematic of the Mother Lode League championship won by the team.

Robert Ramsey, tennis coach, presented (Turn to page four)

## Sec. Ickes Weds In Ireland

Cabinet Officer, 64, Takes 25-Year-Old College Girl As Wife In Dublin Rites

WASHINGTON (AP)—Secretary of Interior Harold L. Ickes, 64-year-old widower and Miss Jane Dahlman, 25, petite red-headed Smith College graduate were married today in a surprise ceremony at Dublin, Ireland, culminating a sheltered romance and a secret trans-Atlantic crossing.

Both romance and the wedding plans had been carried forward with utmost circumspection. First word came to the capital with the announcement that the ceremony had been performed in Dublin, at 9 a. m. today at Adelaide Road Church by the Rev. Dr. R. T. Hanna.

Friends said that Miss Dahlman, attractive sister of the wife of Ickes' late adopted son, Wilmarth, had gone aboard some weeks ago. Then, a few days she went to Dublin as the guest of her uncle, John Cudahy, U. S. minister to the Irish Free State.

## Canadian Mining Men Visit Big Canyon

Major E. J. Gork and Fred M. Wells were recent visitors at the John Matson home at the Big Canyon mine, near Shingle. Both Major Gork and Mr. Wells are very well known in mining circles in Canada and the United States. Mr. Wells is the founder of the now famous Caribou gold quartz mine in British Columbia and the town of Wells bears his name.

## Kin Of Tax Officer Passes At S. F.

W. F. Truscott, deputy county tax collector, was at San Francisco Monday to attend funeral services for his brother-in-law, Ed. Russell, who died suddenly Thursday night.

Mr. Russell was a World War veteran and burial was at the National Cemetery at the Presidio.

He had attended a meeting of a war veterans' organization Thursday night, left the hall about 11 o'clock and walked to his home a short distance away and retired.

Mrs. Russell, Mr. Truscott's eldest sister, found him dead in bed when she arrived home, half an hour later, from a lodge meeting. Death was due to a heart attack.

**TWO WEDDINGS IN FAMILY**—Yehudi Menuhin, young and famous violinist, and his fiancée, Nola Nicholas, daughter of an aspirin manufacturer of Melbourne, Australia, to wed in London today. Recent announcement was also made of the engagement of Yehudi's sister, Hepzibah, 18, brilliant pianist, to Lindsay George Nicholas, brother of Yehudi's fiancée.

## MINUTES OF SPECIAL MEETING OF BOARD OF SUPERVISORS REPORTED

Friday, May 20, 1938.

The Board of Supervisors having adjourned its regular meeting held on Tuesday, May 3rd, 1938, until this time and there were present Messrs. Hall, Green Heusner, Bassi and Breedlove and Arthur J. Koletzke, Clerk of the Board.

Chairman Wm. H. Breedlove, presiding.

This being the time heretofore appointed for receiving bids for the purchase of Bonds of Camino Grammar School District in said County of El Dorado, in the aggregate amount of \$8000.00, all in accordance with a resolution of the Board of Supervisors, heretofore adopted and the notice of sale of bonds duly published as required by law (the affidavit of publication of said notice having heretofore been filed with the board) the following bids, each being accompanied with the required certified checks, were received:

Name	Par
Dean Witter and Co.	\$8,000.00—3 1/2%
\$18.00 Premium	
Lawson, Levy and Williams	\$8,000.00—4 1/2%
\$12.00 Premium	
E. H. Rollins and Sons	\$8,000.00—4%
\$69.55 Premium	

Thereupon, on motion, it is resolved and ordered by the El Dorado County Board of Supervisors that said Camino Grammar School District School Bonds be and they hereby are sold to Dean Witter and Company for the sum of \$8,000.00, par—3 1/2% per cent interest, and premium of \$18.00; and it is further ordered that all checks be returned to

the unsuccessful bidders.

### RESOLUTION

WHEREAS, El Dorado County is vitally interested in the Sierra Way and especially that section lying within the exterior boundaries of the County of El Dorado; and

WHEREAS, the Board of Supervisors of the County of El Dorado are willing to assume the cost of maintenance, which shall exclude snow removal of that section of the highway within the County of El Dorado, when two years after construction of the said highway its maintenance becomes a charge against the counties.

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of the County of El Dorado, State of California, hereby agree to assume the cost of maintenance, which shall exclude snow removal of that section of the Sierra Way lying within the County of El Dorado, when two years after construction of said highway, its maintenance becomes a charge against the counties.

Passed and adopted by the unanimous vote of the Board of Supervisors of the County of El Dorado, this 20th day of May, A. D. 1938.

WM. H. BREEDLOVE, Chairman.

Attest: ARTHUR J. KOLETZKE, Clerk.

THIS AGREEMENT, made and entered into this 12th day of April, A. D. 1938, by and between the CALIFORNIA (Turn to page four)

## Kidnaper Slain As 3 Try Break From Alcatraz Island Prison

SAN FRANCISCO (AP)—One of three convicts who attempted to escape yesterday from Alcatraz Island—famed as America's "Devil's Island"—died today from a wound inflicted by a guard.

The prisoner, Thomas R. Limerick, serving a life sentence for bank robbery and kidnaping, was shot fatally through the head as he made a break for freedom with Rufus Franklin and James C. Lucas.

Just before their attempted break from the penitentiary on small Alcatraz Island in San Francisco bay the three slugged Guard R. C. Cline with a hammer. Cline was taken to the marine hospital where his condition was described as critical.

## MORNING STAR LODGE TO ELECT OFFICERS ON FRIDAY

Election of officers and work in the third degree will highlight the meeting of Morning Star Lodge No. 20, I. O. O. F., on Friday night of this week. The meeting will follow a 6:30 o'clock potluck supper which is being arranged by the members of Leona Rebekah Lodge No. 30.

Six candidates for the third degree will be conferred by Cosmopolitan Lodge, of Latrobe, and the degree will be conferred by the officers of Morning Star lodge.

Nominees for office are Peter Gearhart, noble grand; Harold Olsen, vice grand; Henry Robinson, recording secretary and Jules Besse, trustee.

Following the lodge meeting there will be entertainment and refreshments.

Mr. and Mrs. Lester Longhurst and Miss Ila Longhurst were among the fans who followed the Bartlett's to Roseville Sunday.

## New Mormon Church In Philadelphia

PHILADELPHIA (AP)—Heber J. Grant of Salt Lake City, president of the Church of Latter Day Saints, dedicated the new \$75,000 chapel of the church here Sunday.

A Washington choir was brought here by D. Sterling Wheelwright, director of the Mormon chapel at the National City, and delegations also came here from New York and Pittsburgh.

## Police Use Tear Gas In Newsman's Strike

DULUTH, Minn. (AP)—Police, using tear gas and night sticks, Monday broke up a picket line around the strike-bound Duluth Herald and News-Tribune and permitted employees to enter the plant. No one was injured seriously.

It was understood that publication, suspended for six weeks due to a strike called by the Lake Superior unit of the American Newspaper Guild, would be resumed today.

## 1,200 SEE OPENING OF COUNTY SOFTBALL LEAGUE MONDAY

Parade Through Business Section, Ceremonies At Park Launch Initial Three-Game Series; Schedule Calls For One Game In Each League Three Nights Each Week

The county's softball league swung into action Monday night with three games, played at Marcus P. Bennett, Jr., Memorial Park, before a throng of approximately 1,200 fans.

In the National League, Placerville Lions defeated the American Legion, 13 to 5. In the American League the R. G. team defeated the De Molays, 7 to 2, and in the women's division, Diamond Springs defeated Kelly's, 8 to 7.

The league aims to play on Monday, Wednesday and Friday night of each week, with one game on each of these nights between teams in each of the divisions;—three games three nights a week.

Preliminary to the games at the park, a street parade formed at the junction of Main and Cedar Ravine streets and, led by the county high school band, marched down Main Street. In the line of march were various city and county officials, State Senator A. L. Pierovich, of Jackson, the high school girls' drill team, the Eagles Auxiliary degree team in uniform, and the members of the various baseball teams entered in the three divisions.

Disbanding on Lower Main Street, the paraders moved to the county park where District Attorney Henry S. Lyon pitched the first ball with Senator Pierovich catching.

County School Superintendent E. J. Fitzgerald played first base, Deputy County Clerk V. H. Benson, second base; Coroner A. J. Orelli and Deputy Sheriff R. W. Jones, shortstops; Sheriff George M. Smith, third base and Mert Baake, John Winkelman and Robert E. Roberts in the outfield.

The batsman was John A. Raffetto, Jr., who fouled the first pitch but (Continued on page 4)

## State Relief Load Grows

7,500 To 10,000 Entering California Each Month, Many Lacking Means, Says Report

By JOHN W. DUNLAP  
United Press Staff Correspondent  
SACRAMENTO, (AP)—Failure of the federal housing program to stimulate residential building and continued influx of migratory workers have combined to make an alarming increase in the state relief load, state relief administrator Harold Pomeroy said today.

Figures cited by Pomeroy included: There are 7500 to 10,000 persons entering California each month, many without adequate funds or gainful occupation.

The five San Joaquin valley counties of Fresno, Madera, Kern, Merced and Tulare have a total of 16,880 relief cases as compared to only 6325 a year ago.

## EUROPEAN TENSION OF WEEKEND CONTINUES IN GRAVE INCIDENTS

By WEBB MILLER  
United Press Staff Correspondent  
BERLIN, (Copyright 1938 by United Press)—Tension over Czechoslovakia, allayed by week-end developments, threatened to increase again yesterday because of German allegations of Czech violations of her frontiers.

Three grave incidents were reported by D. N. B., the semi-official German news agency. The latest, the agency declared, occurred Monday when Czech soldiers sowed with straw the international bridges at Ulrich and Hohenfurth, north on Lintz, soaked the straw with gasoline and prepared to ignite it.

When German frontier guards approached, the dispatch said, the soldiers, who had entered German territory during their activities, returned to Czechoslovakia.

**RAIL FENCE IN USE**  
MEXICO, Mo. (AP)—A rail fence, built in 1830 by William and Jerry West on a farm near here, is still in use. It is believed to be the oldest fence of its kind west of the Mississippi.

**BULLET IN HEART**  
LILLE, France, (AP)—Marcel M. Bailleur, 54-year-old ex-soldier, has discovered that he has been carrying a bullet in his heart for 23 years. He was wounded in 1915.

## SOFTBALL STANDINGS

Wednesday night's games will begin at 7 o'clock and games on every night of play will begin at that hour unless otherwise reported.

## LIONS SEE COLOR FILM OF STATE'S HIGHWAY SYSTEM

Placerville Lions met under the gavel of their second vice-president, John A. Raffetto, Jr., on Tuesday noon. Lion President succeeded to the president's chair owing to injury to Lion President Bill Hays, and to the absence of the first vice-president.

Lion John Palmer reported on the club's participation in the softball league opening; Lion Tom Maul called attention to the charter night at Folsom Wednesday; Lion Max Bacr presented Lion L. J. Anderson with a tie, to replace one Anderson lost three weeks ago in a club stunt; and Lion Anderson presented to Lion Joe Hearn a cigarette case emblematic of the club's golfing championship, which Mr. Hearn won.

Entertainment, supplied by the courtesy of Lion Pete Garrick, was the showing of a film in technicolor, "California Highways."

The club's nominating committee, Lion C. E. Barker, chairman, reported amending its report of a week ago. Lion Albert Simon, who had been nominated for president, informed the committee it would be impossible for him to accept if elected. The club withdrew Lion Simon's name and nominated Lion H. E. Dillinger for president.

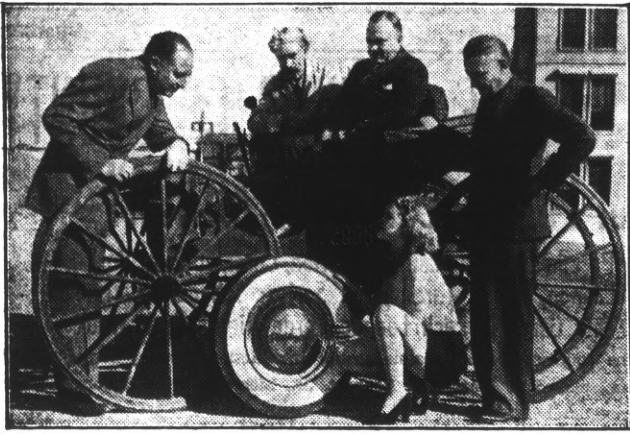

## DREDGES BUSY

FORT PECK, Mont. (AP)—Final deep dredging operations on the Fort Peck dam are under way with four giant pumps at work. Army engineers have announced.

An organization meeting of the Camerata Club is being planned to be held at Hotel Raffles on June 8. All amateur camera fans are welcome to enroll and should see Cecil George for further information.

## MANY INSPECTIONS OFFERED BY LOCAL MOBILGAS MEN TO ASSIST SUMMER MOTORISTS

"After its gruelling work during the Winter months, is your car ready for the punishment of Summer?" With this question uppermost in the minds of Mobilgas and Mobiloil dealers, they have again joined in a great Summerizing plan, including many free car inspections to assist motorists in preventing the troubles that might be experienced for lack of proper checkup.

"For the benefit of motorists in this area," says Gene Morrison, agent-manager for General Petroleum Corporation, "our station operators and dealers who maintain Mobilubrication departments are offering twelve free inspections of vital automobile parts."

"These inspections are for the purpose of keeping automobiles healthy and insuring their peak performance, without mishaps, during the warm weather season ahead."

### To Avoid Car Trouble

Judging from a heavy response to the Summerizing plan as announced here last year and expressions of satisfaction from many local motorists, the Mobilgas executive predicts that Summerizing in 1938 will be a more pronounced success than ever.

"It is highly important," he declares, "that cars be inspected regularly to make them road worthy and to prevent burning out bearings, sticking of valves, scoring of cylinder walls, failure of spark plugs, blowouts of tires, overheating of the motor, failure of battery, failure of lights, undue carbon deposit and the use of too much oil and gasoline."

In addition to the Gardella Service center in Placerville, other General Petroleum dealers in the county are: Myrtle Rice, Camino; John Balderston, near Georgetown, and several service stations in Lake Tahoe Valley, during the summer season.

## Summerizing of Tires Essential Says U. S. Chief

Westerners have more reason to have their tires "Summerized" than motorists in any other section of the country, according to R. C. Tucker, Pacific Coast sales manager for U. S. Tire Dealers Mutual Corp.

"We Pacific Coast motorists have a reputation for going places and seeing things," Mr. Tucker explained. "This is only natural, for we have the finest roads in the world to go on; unsurpassed scenery to see; and more automobiles per family to go in than any other section of the Union."

"Of course an important part of 'Summerizing' is to be sure that your car is equipped with tires ready to provide the extra stopping power and skid control required in heavy traffic, and the extra wear needed for long trips. Car owners can now provide both the extra stopping power and extra wear so necessary for motoring peace of mind simply by equipping their cars with a new kind of safety tire recently introduced by United States Rubber Products, Inc."

"This tire, the U. S. Royal Master, has proved, by extensive road tests, that it will stop a car from 4 to 223 feet quicker. Charts listing the results of these tests have been prepared and show that the patented Centipede Grip tread on this tire will stop cars traveling at forty-five miles an hour many feet quicker than other new tires. For example, four feet quicker on dry roads; 46 feet quicker on wet asphalt; 111 feet quicker on wet crown roads; and 223 feet quicker on hard pavement covered with wet clay."

"Not only does Royal Master provide this extra stopping power and skid control while the tire is new, but, because of its lifetime de-skidded tread, these safety features are maintained for the entire life of the tire. Car owners can now have their Royal Master tires re-de-skidded and re-grooved as required."

## MIRACULOUS IS TORTURE WHICH AUTOS ENDURE

Miracles are performed every day within automobiles.

Starting information on the remarkable achievements of many vital parts of cars has just been issued by Marc D. Leh, assistant general sales manager for the western marketers of Mobilgas and Mobiloil, as reason for Summerizing inspection.

"If you are statistically minded," he says, "it almost takes your breath away to contemplate the marvelous goings-on under the hoods and bodies of the cars now so essential to our daily life."

### Unbelievable Actions

It is explained by the Mobilgas executive that while you have driven your car 5,000 miles (average distance driven from winter to spring) the following unbelievable actions have taken place: Twenty-two million, seven hundred fifty thousand revolutions of the fan belt.

Five million revolutions of the speedometer cable.

Forty-five million fuel charges set off by the spark plugs.

Cleaning of 1,666 gallons of lubricants by the oil filter.

Fifteen million revolutions of the crankshaft, rear axle pinion and universals.

Seven and a half million openings and closings of each valve.

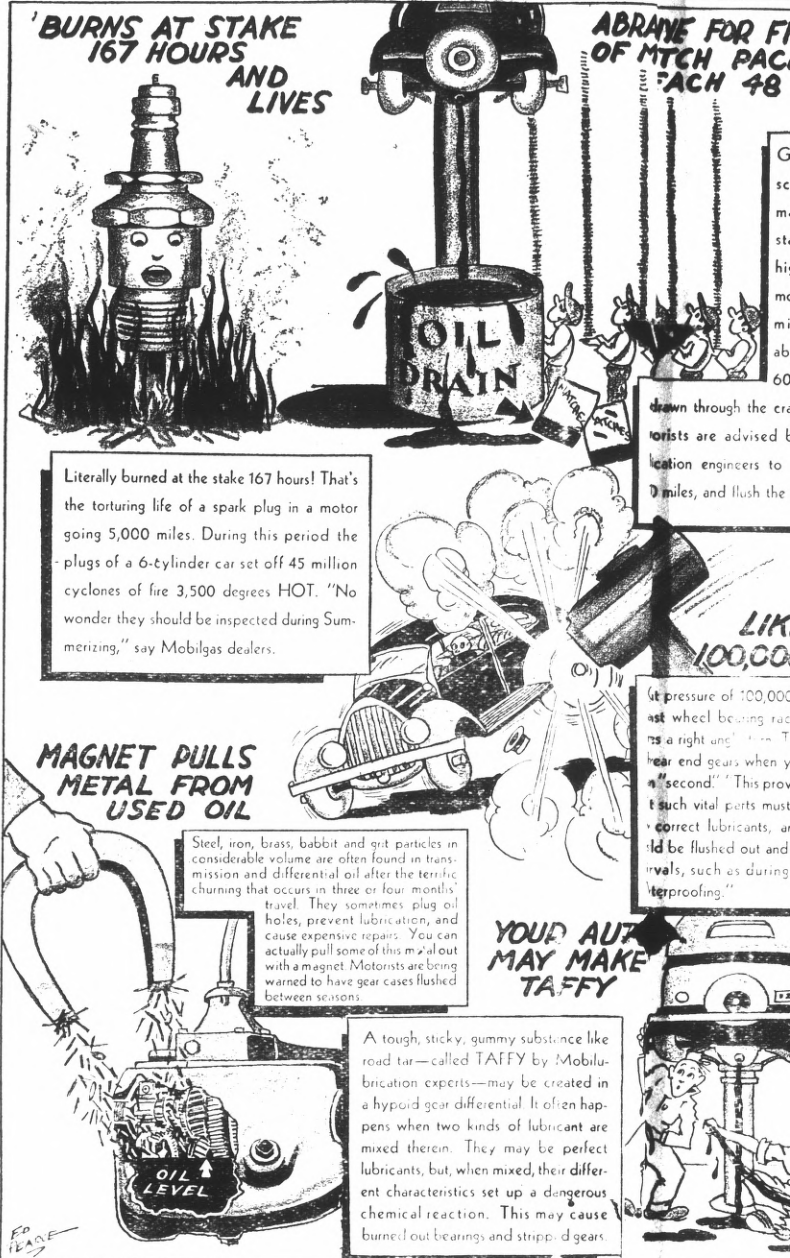

Three million, seven hundred fifty thousand revolutions of the rear axle, wheels and tires.

### Temperatures Climb High

"Added to all this action," says Leh, "are the facts that during this 5,000 miles, temperatures in the combustion chambers have climbed as high as 3,500 degrees; motors have turned as high as 4,000 revolutions per minute; flame velocities past the exhaust stems reach 110 miles per hour; and valve stems work in temperatures in excess of 700 degrees. One ceases to wonder why crankcases need to be drained, flushed and refilled every 1,000 miles."

## So Help Me, It's True!

By E. F. (Woodie) Woodman

# YOU CAN STOP 4 to 223 FEET QUICKER

PROVE IT YOURSELF IN ONE MINUTE

### STOPS QUICKER

When brakes are applied, the "de-skidded" cross cuts go into action...hundreds of sharp gripping edges bite through the slippery surface film...enable the flexible tread units to solidly grip the pavement.

### CONTROLS SIDE SKIDS

When the weight of the car suddenly shifts to the side, in turning corners, passing cars, etc., the sharp lateral edges of the seven continuous ribs go into action, instantly bite through the film and gain a direct positive foothold on the road.

### HERE'S WHY YOU'RE SAFER WHEREVER YOU DRIVE...

# ADO COUNTY MOTORISTS ANNOUNCED

## It's True!

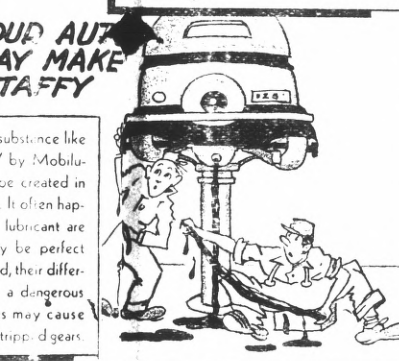

Woodman

**ABRAVE FOR FIVE STACKS OF MATCH PACKETS. EACH 48 FEET HIGH**

Grit enough to make scratchers for 11,500 match packets (five stacks, each 48 feet high) is collected in motor oil during 5,000 miles of use. The abrasive comes from 60,000 cubic feet of drawn through the crankcase. That's why motorists are advised by automotive and location engineers to drain the oil every 5,000 miles, and flush the crankcase regularly.

**LIKE A 100,000 lb. BLOW**

A pressure of 100,000 pounds is exerted on wheel bearing races when your car is a right angle. The same great force is exerted on the end gears when you rapidly accelerate. "This proves," say technicians, "that vital parts must be well cushioned with correct lubricants, and these lubricants should be flushed out and replaced at regular intervals, such as during Summerizing and winterproofing."

## SAFETY

We've got what it takes to keep the machine in top running order, all through hot summer days, whether a short jaunt or a long trip. Drive it and find out about this expert, protective service.

## RUST DEPOSITS DESTROY EFFICIENCY OF AUTOMOBILES

Warped and sticking valves, wear of piston rings, waste of oil and power and many other troubles have been avoided for the automobile owner by the design of efficient cooling systems, such as installed in today's cars, says Chas. Gandy, manager for the Gardella Servicer.

"However," he declares, "one of the reasons for announcing the Summerizing inspection plan is to call attention to the necessity for frequent flushing of the cooling system to prevent

overheating and attendant difficulties. "Rust in the radiator and along the walls of water jacket is one of the worst enemies of a motor. Science proves that a deposit of rust only one-eighth inch in thickness has the same resistance to heat and cold as a sheet of asbestos of about the same thickness."

"This gives some conception of the importance of flushing cooling systems with a product created by Mobilgas chemists for this specific purpose,

## UNIQUE PLACES ARE SEEN BY SUMMER MOTORISTS

Dedicated to the originality of man, many unique, strange and funny places are springing up throughout the Pacific West.

and following this with the use of a water neutralizer to prevent further formation of this decomposed iron.

"Too high a temperature wastes fuel and causes oil to burn. Hence, all Mobil dealers urge the frequent inspection of the cooling system."

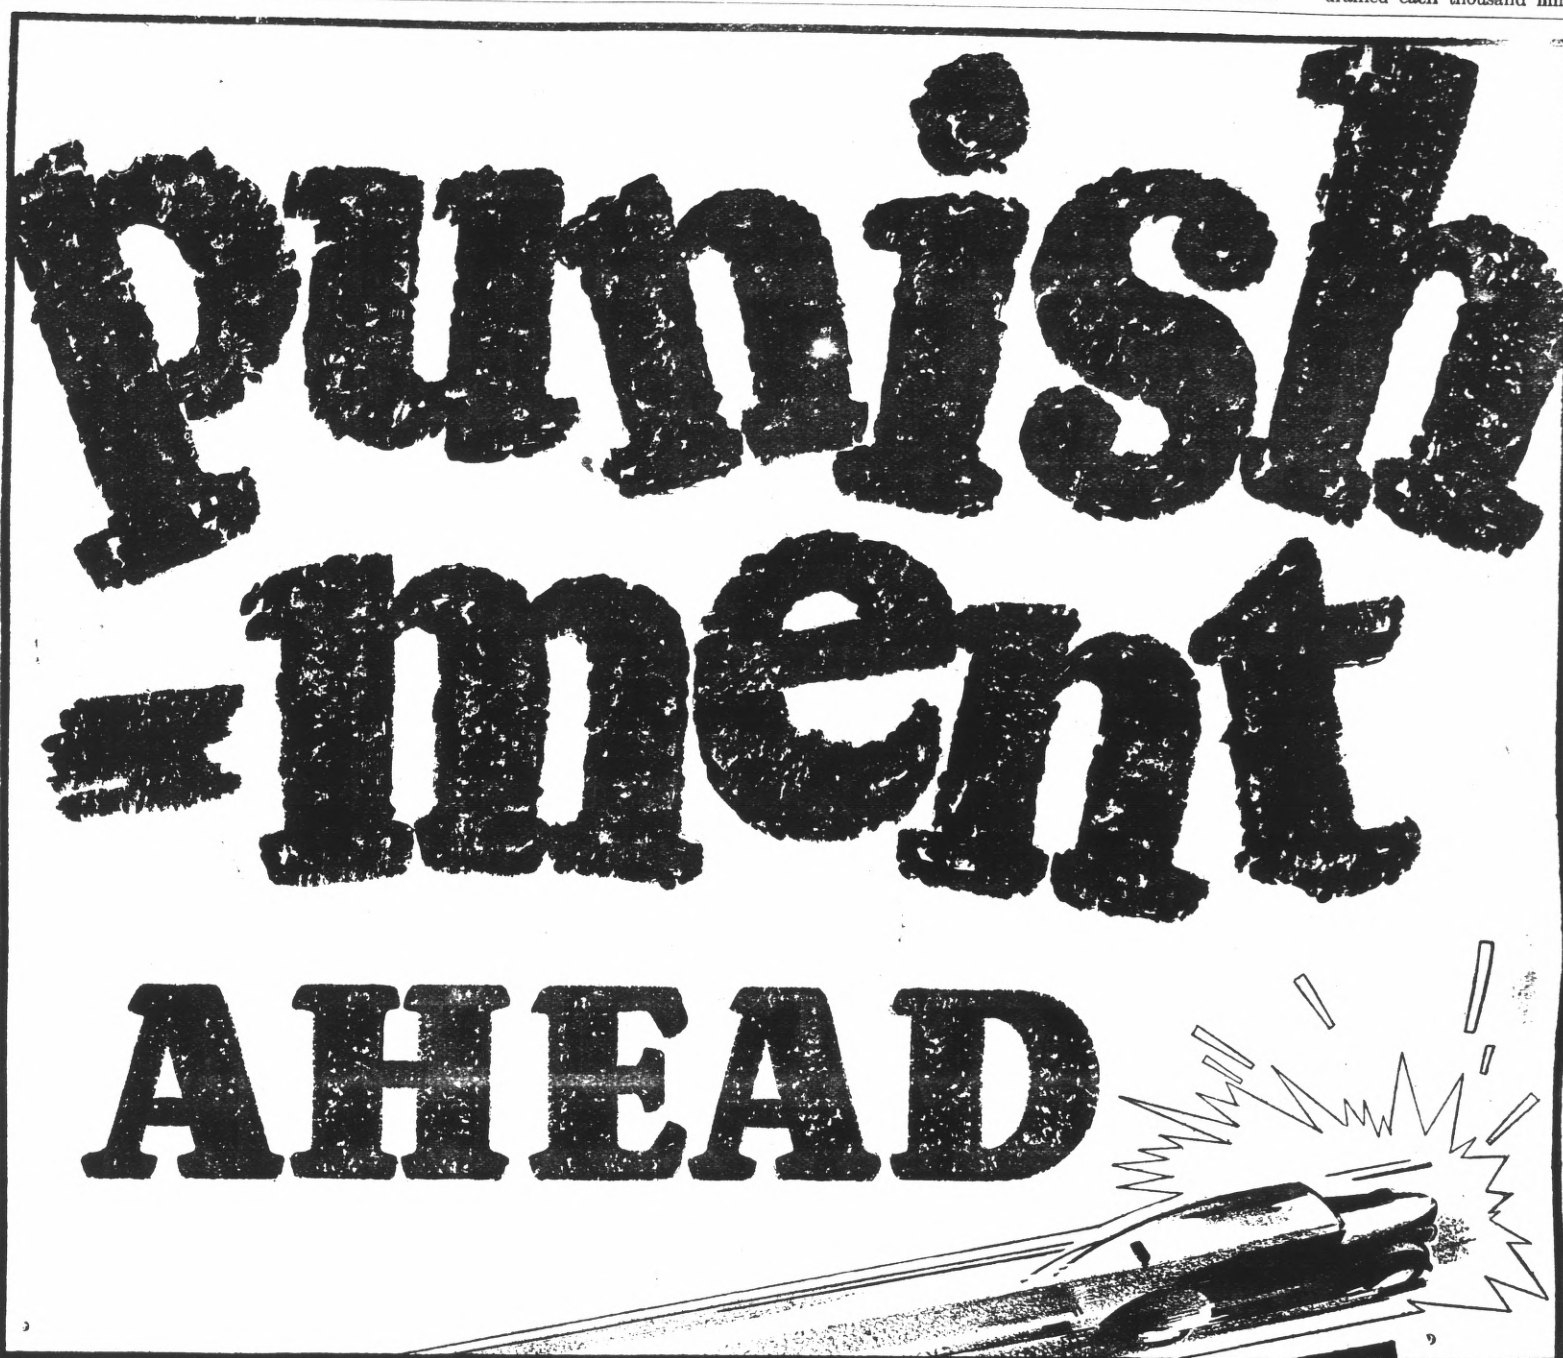

"With motorists from far lands flocking westward in ever increasing numbers, to tour and counter tour the broad leagues of Washington, Oregon, California and Arizona," says A. J. Donnelly, Northern California general manager of General Petroleum Corporation, "the growing number of originally designed marketing and service establishments appeal to their imagination, impressing them with the ingenuity of our people."

"This passing show of mystery, added to the matchless scenic grandeur of our region, and our wonderful system of broad, safe highways, has much bearing on making the Pacific West the show place of the nation."

## 8,000 GALLONS OF AIR TO 1 OF GAS

It takes 8,000 gallons of air to burn one gallon of Mobilgas in the modern car, according to A. H. De Priest, vice-president and general sales manager of General Petroleum, who says that in 200 or 300 miles your motor has consumed enough air to fill a large business block. Engineers say that every cubic mile of this air contains one ton (2,000 pounds) of dust and grit.

"In going 1,000 miles," says De Priest, "12,000 cubic feet of grit laden air is drawn through the motor oil. That's why crankcases should be drained each thousand miles."

*In the next 5,000 miles you drive*

—your crankshaft will turn on its bearings 15,000,000 times. Lubricants will be subject to as high as 3,300 degrees of heat. The rear tires and axle will revolve 3,750,000 times. Each piston will travel over 116,000,000 feet. 60,000 cubic feet of dust and abrasive laden air will be drawn into the crankcase. Your fan belt will revolve 22,750,000 times—your spark plugs will fire 7,500,000 times. The speedometer cable will revolve 5,000,000 times.

This is only a small part of the punishment your car must take in 5,000 miles of hard summer driving ahead. It is only a small part of the punishment your car has taken in 5,000 miles of winter driving.

It is only good judgment to provide the very best protection against the gruelling punishment of hard summer driving.

This protection is the complete Summerizing service featured by General Petroleum dealers...

Take your car today to your nearby General dealer and have it checked free from stem to stern. Take advantage of this essential, grief-saving Summerizing service. Now—today is the time to do it.

NIA COMMISSION FOR THE GOLDEN GATE INTERNATIONAL EXPOSITION, hereinafter referred to as the first party, the COUNTY OF EL DORADO, hereinafter referred to as the second party, and the COUNTY OF SACRAMENTO and Counties associated with said Sacramento County, hereinafter referred to as the third party.

### WITNESSETH:

WHEREAS, under the laws of the State of California, Chapter 342 and 590, Statutes of 1937, the California Commission for the Golden Gate International Exposition was created and is empowered to make provision for the acquisition, collection, transportation, installation, and maintenance of a State exhibit at the Golden Gate International Exposition to be held in the San Francisco Bay region in 1939, and the construction of a State building or buildings for said State exhibit, and the gardening and improvement of the grounds surrounding the State building or buildings, and the rental of such space as said Commission may deem adequate for any part or parts of said State exhibit, and for the supply of utility services in connection therewith, and

WHEREAS, by said Chapter 342, funds have been appropriated for the matters and purposes as aforesaid, and

WHEREAS, said Chapter 342 further provides that said State exhibit may include an exhibit of the resources, industries and products of the State of California and objects of historical interest, displays of California wild life, sports, scenic and other tourist attractions and such displays as illustrate the function and administrative faculty of the State Government and its departments in the advancement of industry, education, recreation and the adaption of its institutions and activities to the wants and welfare of the people; and

WHEREAS, the second party proposes to associate and join with the county of Sacramento and such other counties as may associate with said County of Sacramento, hereinafter referred to as Counties, in the preparation, erection, construction and maintenance of an exhibit at said Exposition, and does desire with said other counties to act through the agency of the Sacramento group in the preparation, erection, construction and maintenance at said Exposition of a joint exhibit as provided for by said Chapter 342 as aforesaid.

NOW, THEREFORE, the parties hereto agree as follows:

1. First party agrees to design, erect and construction a building or buildings upon Treasure Island the site selected for said Exposition, and to improve the grounds appurtenant thereto, as hereinafter provided, and shall provide for and cause to be installed in connection therewith sewerage, water, gas and electrical facilities as in its judgment may be reasonable and necessary. It is further agreed and understood that in so far as it may be practicable in the judgment of the first party, the design, erection and construction of said building or buildings and the improvement of said grounds shall conform to the wishes and desires of said second party and Counties, but said first party, with a view to a uniformly coordinated plan for all buildings to be designed, erected and constructed, and all grounds to be improved by it, shall have full power of decision in all these matters.

2. First party agrees to furnish and make available to second party and the Counties such space in such amount in said building or buildings and upon said grounds as may be agreed upon by and between it and said second party and the counties, but full power of decision as to said space and the amount thereof to be furnished and made available to said second party and

the Counties shall rest solely with said first party.

3. First party agrees that second party and the Counties shall, subject to the terms and conditions herein contained, have and retain and enjoy during the full period of the Exposition quiet possession of the premises agreed to be furnished to them, and second party agrees, subject to the terms and conditions herein contained, to maintain together with Counties, during the entire period of said Exposition, the exhibit herein provided for.

4. Second party agrees to act in conjunction with Sacramento County for the purposes provided for by Section 3, of Chapter 342, Statutes of 1937, the same to be performed and accomplished in conjunction with the Counties and by and through the said Counties in and upon the space and grounds assigned thereto as herein provided. It is further agreed and understood that said second party shall, in conjunction with the Counties, prepare and install all interior decoration for the space assigned to it and the Counties. Said second party shall, in conjunction with the Counties, furnish all trees, shrubs and other vegetation for the grounds assigned to it and Counties and shall, with the Counties, plant and maintain the same, but if said second party and Counties shall elect not to plant and maintain the same then first party shall plant and maintain such vegetation.

5. All water, heat, light and power supplied to the said interior premises assigned to said second party and said Counties and all janitor service thereon shall be paid for by said second party and Counties.
6. In carrying out and performing the matters and things herein agreed to be done by second party, said second party agrees to furnish and expend an amount not more than such amount as herein-after set by said El Dorado County, said moneys to be furnished and paid by said second party to the third party in the manner and at such times as said second and third parties may agree, and to be expended by said third party in such manner as may be agreed upon by second and third parties for the matters and things herein agreed to be done by said second party and for not other purpose.

7. First party agrees to furnish and make available such space and grounds as hereinabove agreed to be furnished to second party on or before December 1, 1938, and second and third parties agree to perform the matters and things agreed and provided to be done by them on or before February 18, 1939.

8. The parties hereto further agree as follows:
  - a. That the exhibit herein provided for shall constitute a part of the State exhibit as provided for by Section 3 of Chapter 342, Statutes of 1937, and shall at all times be subject to the approval of said first party as to the character, nature and maintenance thereof.
  - b. That said premises provided to be furnished hereunder shall be used for the purposes and things herein provided and for no other or different purposes, and shall at all times be under the control of said first party.
  - c. That the first party shall furnish such police service as it may deem adequate to protect said second party and the Counties in the enjoyment of the premises assigned to them.
  - d. That neither the first party nor the State of California shall be responsible to said second or third parties or the Counties for any loss or losses sustained by them, or any of them by reason of fire, water, theft, earthquake, or otherwise, or at all, and said second and third parties waive all claim for damage to goods, wares, merchandise and other property in, upon or about the said premises and agree to hold said first party exempt and harmless for and on account of any damages to any goods, wares, merchandise or other property arising from the use of the premises by said second and third parties or otherwise or at all.
  - e. The first party agrees to as-
